ABDULAZIZ FAISAL SAAD

Data Analyst | Riyadh | 0582077016 | 7rbe21@gmail.com | www.linkedin.com/in/azizener

PROFILE

Highly analytical and detail-oriented Data Analyst with a bachelor's degree in computer science and extensive experience in data analysis, process improvement, and project management. Adept at identifying business needs, developing strategies to meet those needs, and implementing process enhancements to drive efficiency and productivity. Proficient in Microsoft Office, data analysis tools, and fluent in English and Arabic.

EDUCATION

Taibah University   June 2024 – 2019

Bachelor of Science in Computer Science

- GPA: 4.29/5.00 – Second Class Honor
- Courses: Data structure & Algorithm, Operating System, Network, Software Engineering
- Graduation Project: Phishing Attack Detection

SKILLS

Data Analysis: SQL, Microsoft Excel, Power BI, Tableau, Pandas, NumPy.
Technical Skills: Python, R, Excel, Power BI, MySQL, JavaScript, HTML/CSS, React, API, Git, GitHub.
Soft Skills: Analytical thinking, problem-solving, communication, teamwork, adaptability, time management.
Languages: Arabic (Native), English (Fluent: 77% STEP)

WORK EXPERENINCE

Taibah Valley | Internship   August 2023 – July 2023

Software Developer

I built a decentralized voting application using Ethereum and Solidity. My role included the end-to-end development of the project, showcasing my expertise in blockchain technology, smart contract development, Fullstack development and a commitment to delivering secure and transparent solutions.

PROJECTS

Phishwarden | University Graduation Project

I played a pivotal role in building a robust website for efficient interaction with the AI model. Leveraging HTML, CSS, and React for the frontend, along with PHP (Laravel) for backend development and SQL for database interaction, I contributed to the successful implementation of a Phishing Attack detection system using machine learning. Additionally, I managed the deployment of the solution on Heroku for reliable hosting.

Ecommerce | Tuwaiq Graduation Project

incorporating HTML/CSS, Bootstrap for responsive design, PHP (Laravel) for backend logic, SQL for database management, and implemented routing for seamless navigation. Applied essential programming concepts, including MVC architecture and Eloquent, to ensure efficient and scalable system functionality.

ACHIEVEMENTS & CERTIFICATES

Dell Technologies | Information Storage and Management v5 (ISM v5) Certificate.   2024 August

National IT Academy (NITA) Program   2024 July

- Participated in the ITXcelerate program, a collaboration with Aramco and Dell Technologies.

Tuwaiq Academy | PHP Laravel | Bootcamp   2023 December – 2024 January

- Acquired hands-on experience in building web applications using Laravel, including database integration with SQL.
- Developed and deployed projects, demonstrating proficiency in Laravel's features such as routing, Eloquent ORM, and MVC design patterns.

SaudiCPC | Competitive Programming | Bootcamp   2022 September

- Acquired advanced problem-solving skills through challenging coding exercises and competitions.
- Demonstrated proficiency in algorithmic thinking and optimization strategies.
- Successfully reached the finals, showcasing adaptability and a competitive mindset.
- Collaborated with peers to solve complex programming challenges, fostering teamwork.
